

# ELECTRIC GRAPPLE

The Bateman Electric Grapple is a cutting-edge solution designed for efficient and versatile loading of bulk commodities at ports. As effective as a diesel ship gear, it handles materials including scrap, pig iron, rocks, grain, and fertilizer. Fully customizable to meet customer needs, the Bateman Electric Grapple is the ideal choice for heavy-duty port operations with precision and reliability.

**Optional magnet for the orange peel model.**

**Can be made in a orange peel version and a clamshell version.**

**Load scrap, pig iron, rocks, grain, and fertilizer.**

**FULLY CUSTOMIZABLE TO YOUR REQUIREMENTS**

Grapple volume, voltage, motor size, magnet, and number of tines.
